Laboratory Service Policies

Find the policy you need below.

These policies apply to outpatient lab services across all providers, including all independent, physician office, and hospital-based labs. Lab services that do not meet the coverage criteria listed in the Laboratory Service policies will not be covered by Capital Blue Cross.

Please see our main policy page (/wps/portal/cap/home/find/medical-policy) for any policies not related to laboratory services or other genetic testing policies. You can also view the retired medical policies (/wps/portal/cap/home/find/retired-medical-policy) for policies that have been retired.
