- Manage your prescription drug benefits
- Importance of obtaining preauthorization
- Women's Health
- Newborns' and mothers' health protection act
- Coverage for newborn children
- Transition to adult primary care

2025 new and updated programs

For 2025, we have made the following update to some of our plans. To determine if the following applies to you, check your Benefits Booklet (Certificate of Coverage), which you can access through your secure account at CapBlueCross.com/login (https://www.capbluecross.com/login), or call Member Services for more information.

UPDATE: Nutritional Counseling for Obesity

Capital Blue Cross currently offers nutritional counseling and education for members who are identified as overweight or obese, needing assistance with weight loss or maintaining optimal weight through dietary modification. Effective upon renewal on or after January 1, 2025, Nutritional Therapy for non-preventive obesity visits will increase from two or six visits to 20 visits per benefit period. This change will be reflected in the member's Benefit Booklet.

Benefits for nutritional counseling include counseling and education for treatment of obesity, such as dietary assessment, changing your eating habits, eating a balanced diet, making healthier choices, and other approaches where dietary adjustments are medically necessary. The 20-visit limit does not apply to nutritional counseling benefit for diabetes and chronic conditions, which may have different limits per benefit period, or nutritional guidance offered at our Capital Blue Cross Connect health and wellness centers. Contact Member Services at the number on the back of your ID card for more information.

Your privacy

- Your privacy is important to us
- Our privacy pledge
- Information we collect
- How we protect member information
- Help fight healthcare fraud, waste, and abuse
- We're here to help
