Medicare Medical Policies

Medicare provides policies guiding coverage of many medical services and interventions. These Medicare policies include statutes, regulations, national coverage determinations, local coverage determinations, and general coverage and benefit conditions in traditional Medicare (collectively referred to as "Medicare criteria").

When Medicare criteria are not fully established, as that term is defined in Medicare rules, Capital Blue Cross and/or our contracted third-party vendors, may develop and/or adopt additional policies and coverage criteria based on current evidence in widely used treatment guidelines or clinical literature, as permitted by law.

Find the policies you need, including for specialty care:
